

1 The kid's had ran away from the Rathouse for almost three days. they
were extremely tired and hungry. Therefore they had a little rest in a
2 forest. "I am hungry!" said beano. "I'll get you some food. Just wait me a
3 while." said Lance. Lance went into the forest with Fork. they picked
some fresh and delicious fruit and joined back the others. Meanwhile,
4 the evil Harry Mole and Bash had arrived the forest "Harry Mole, I
5 sensed that there are humans in the forest, they must be the kid's. Now I
order you to catch then back, RIGHT UNDER MY EYES !" So, Harry
6 Mole started to search for the kid's.

7 "Look guys! I found a house!" said Emily. 'Maybe there are useful
8 materials for us!' Just then, the boy's came back. 'Quick! hide in that
house! Bash is coming!' The children hid in the house and waited
9 silently. They also find some food, clothes and weapons in the house.
10 Yet, they found some old machines came from 2019. They made some
jack from those junks and flew away from the forest. "Argh! They ran
11 away! Track them with your machine, Harry Mole!"

12 After a long, long flying, they saw a broken space ship in the rubbish
13 dump. Chicklet, which is Lance's robot pet, is very clever and smart. It
helped the kid's to fix the ship. they jumped into the ship and travelled
14 into space. They travelled from planets to planets, but they still didn't find
15 any human whose are refugeeing on other planet. Suddenly, played a
recording though it's eyes. the video saids after the robots ruled the
16 Earth, a little group of humans escaped from Earth. They are now living
17 at Mars, where is safe for humanity to develop its own culture. The kid's
finally reorganised that their parents' didn't left them behind.

18
19 In the end, the kid's finally found their families in Mars. Everyone is very
excited about their new lives!
